ABOUT ME

Full Stack Developer with 2+ years building responsive, high-performance web apps using Next.js, React, Node.js, and PostgreSQL. Experienced in designing scalable architecture, working in Agile teams, and shipping production-grade features across startups and SaaS platforms. Passionate about clean code, performance optimization, and delivering intuitive UX.

EXPERIENCE

FULL-STACK DEVELOPER

Nov 2025 - Present

Freelance

- Built 5+ Next.js web apps with SSR and ISR for fast-loading UIs.
- Stayed up to date with new Next.js features.
- Backend development with Node.js and PostgreSQL, improving DB query times.

WIX DEVELOPER

September 2025 - October 2025

Teemo AI

- I redesigned and rebuilt their homepage and two key landing pages.
- Improved the SEO writing to clearly communicate product to users.
- Worked with managers and team members on sprints to reach deliverable results in record time.

WEB DEVELOPER

June 2023 - August 2025

Rox Technologies Limited

- Worked with the wider development team.
- Managed website design, content, and SEO Marketing.
- Worked with wordpress on few occasions.
